To whom it may concern

Milan, 22.03.11

In 2010, the German School of Osteopathy, in Milan, Italy, has purchased 20 tables from the above named company, for teaching purposes.

The quality of the foldable treatment tables is extremely good.
Very good stability and practicability, especially if considering the light weight.

Habys offers a comprehensive service, very quick delivery times, and overall a quality/price ratio that is difficult to find somewhere else in Europe.

The German School of Osteopathy strongly recommends Habys and its products.
